PROFILE

I am a passionate Mern Stack Developer with 2.3 years of hands-on experience in building responsive and scalable web applications. I specialize in the MERN stack (MongoDB, Express, React, Node.js) and have worked extensively with tools like Redux Toolkit, Firebase, MySQL, and Sequelize. I am committed to delivering high-quality, user-friendly web applications and continuously improving my skills to stay up-to-date with the latest technologies.

WORK EXPERIENCE

Third Eye Production Pvt. Ltd.   Oct 2024 –Present
Mern Stack Developer

- **Front-end Development:** Creating responsive user interfaces with HTML,CSS,JavaScript,Bootstrap,React.js. Implementing state management using Redux for efficient data flow.
- **Back-end Development:** Designing and developing server-side logic with Node.js and Express.js. Integrating MongoDB and MySQL for efficient data storage and retrieval.
- **API Development:** Building RESTful APIs to facilitate seamless communication between the front-end and back-end. Ensuring secure and efficient data transfer through API endpoints.
- **Version Control:** Utilizing Git for version control, ensuring collaborative and streamlined development.

Goverdhan Learning Cloud Pvt. Ltd.   April 2023- July 2024
MERN STACK DEVELOPER

- Contributed to the development of Yuvamanthan.org, a civic engagement and educational platform for promoting youth participation in nation-building.
- Built using the MERN stack: MongoDB, Express.js, React.js, and Node.js.
- Developed a user-friendly interface to enhance accessibility and engagement for diverse user groups.
- Implemented a robust admin panel for efficient content and user management.
- Integrated event management features, including scheduling, participation tracking, and analytics.

Kickr Technology Pvt. limited   Sep 2022- Mar 2023
React Developer

I work as a React developer at Kicker Technology, where my role involves Frontend development and Api integration. I contribute to the development and enhancement of web applications.
